

**Job Announcement:  
Physical Therapist  
The Bedford Center**

We are excited to announce an opening for a **Physical Therapist** at The Bedford Center, which is a State Licensed Adult Day Health Care, and Alzheimer's Day Care and Resource Center primarily serving residents of East Contra Costa County. The Physical Therapist attends to the physical needs of our program participants alongside specialized nurse and social work colleagues.

If you are looking for a fun, warm and caring environment this is the place for you!

**Start Date:** June 1, 2018

**Hours:** Tuesday/Thursday; 4 hours/day

**The Position:**

- ❖ Provide an assessment, establish a treatment plan based on the assessment, schedule and perform treatment.
- ❖ Modify treatment plans based on subsequent reevaluations or with any changes of status.
- ❖ Select evaluation and treatment methods appropriate to the participant's physical and emotional status, diagnosis, and age group to formulate an appropriate care plan.
- ❖ Provide muscle, nerve joint and functional ability tests; treatment to relieve pain, develop or restore function; assistance to achieve and maintain maximum performance.
- ❖ Provide educational information about physical therapy, injury prevention, ergonomics and ways to promote health to participants and staff.
- ❖ Develop activities for the general maintenance programs. Review and make changes as needed.
- ❖ Report on progress of participants by preparing and maintaining accurate participant records, complete assessments, treatment plans, progress notes, IPC's and discharge summaries.
- ❖ In cooperation with other staff members, develop and implement in-service training programs for Center staff.
- ❖ Participate as a member of the multidisciplinary team (MDT).

**Minimum Qualifications:**

- ❖ Current Physical Therapy (PT) license and at least one year's experience in a rehabilitation or home health setting within the past five years.
- ❖ Must be able to demonstrate the knowledge and skills necessary to provide care primarily to the frail and/or elderly populations including people with Alzheimer's or dementia.
